Mr. Rocco Bruno, CEO  
Lifestream Purification Systems, LLC  
Austin, TX 78744

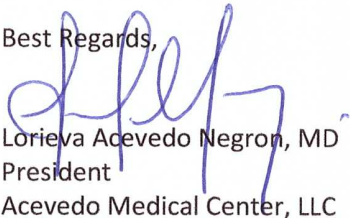

Dear Mr. Bruno and Lifestream Family,

Through this letter I would like both, my team and myself, to share with you and the Angel of Water family, how beneficial it has been for our patients with constipation and gastrointestinal problems, this wonderful treatment of Colon Hydrotherapy with the modern, elegant, safe and comfortable Angel of Water System, this decision have been a blessing for my medical practice.

Constipation is the main complaint of many of my patients in my office. Before I started recommending the Colon Hydrotherapy treatment to my patients, they were using on their own laxatives, enemas, suppositories and frequently visiting the gastroenterologist. Many of my patients have decided to experience the wonderful benefits of Colon Hydrotherapy with the Angel of Water System. It is a simple procedure that alleviates the problem of constipation and related symptoms, while the body naturally detoxifies without annoying laxative side effects.

I recommend this treatment to all my medical colleagues who would like to make the decision to implement this wonderful procedure with the Angel of Water System in their practice, they will not regret doing it.

Best Regards,

  
Lorieva Acevedo Negron, MD  
President  
Acevedo Medical Center, LLC
